FIT. FUNCTION. STYLE.

**TOUGH, DEPENDABLE,  
QUALITY BUILT.**

Bestop has been a leader in Jeep and Truck accessories for more than 60 years. Our selection of products for Trucks and SUVs come from years of creating speciality products for outdoor adventures with your vehicle.

Our Truck products feature the same engineering, quality control, fit and finish that has established Bestop as the sole supplier of factory soft tops for Jeep since 1986. We are proud to say all our Bestop-branded replacement soft tops, including Supertop for Truck are designed and manufactured in North America. Remember that Bestop isn't just for Jeep... we've got your Truck or SUV covered, too.

Our 2016 catalog showcases our 60+ plus year heritage. Within these pages you'll find all the best products you expect from Bestop.

Thanks for picking up our catalog. If you've got questions or feedback, let us know.

We've been here for more than 60 years.  
We'll be here tomorrow.

# WHAT IS A POWERBOARD

**Bestop designed, Bestop engineered, Bestop manufactured.  
Independently tested. *And...Continuously Improved.***

- State-of-the-industry powered running board extends in about one second, retracts flawlessly after 4 second delay.
- Splits the distance between the ground and your cab.
- High quality, performance and value at a lower price.
- Integrated LED lighting standard on all Powerboards

**Bestop's PowerBoard® is proven to meet and exceed lab and real world requirements. Bestop confidently delivers the best product on the market today.**

#### ***Separate System***

The PowerBoard NX doesn't tap into the truck's wiring, so there's no interference with other aftermarket items, like door alarms or remote starters.

#### ***Wiring Harness***

Nothing goes inside the cab (NX only). Fewer headaches for installers, as no door panels, carpets, or kickplates are removed, no digging into the dashboard.

#### ***Controller***

Usually we try to make things quicker, but we discovered that slowing down the board made it more elegant, more refined, more like the OE boards. It also gives kids a bit more time to get in the back doors.

#### ***Testing***

All PowerBoards have been tested in real world conditions and in laboratories. They meet stringent OE truck requirements, and they're among the most rigorously tested products ever developed at Bestop.

#### ***Linkages***

Our engineers increased the diameter and added gussets to the motor mounts to make them even stronger.

#### ***Wedge Block***

Small changes count. Wedge blocks now feature a larger clamping surface with the clamp bolt threaded in place to eliminate slippage.

***Both Powerboard® and Powerboard NX® are rated to support 600 lbs. and install with no drilling.***

**Load Rating!**

**NO Drill  
installation**

## Retractable Electric Running Boards for Trucks and SUV's

- Electrically powered running board hides stealthily underneath your truck when doors are closed and extends down to meet your foot when door opens.
- Drops down about 6" and out 2" to create a stair-step into your truck
- Full length board works with both front and rear doors, driver and passenger sides
- 600 pound load capacity per side
- Complete kit includes two full length boards, OEM quality sealed motor, controller, hardware, wiring harness with weatherproof connectors and LED Light kit
- Powerboard NX features wireless activation components that reduce installation time and effort
- Built-in anti-pinch safety features senses pressure to keep the board from retracting on your hand and feet
- Patented high strength, die-cast aluminum linkage built to last in any climate
- OEM quality sealed motors that perform in any weather
- OEM quality heavy-duty wiring harness with weatherproof connectors
- Sturdy 6.25 inch wide aluminum running board features ultra-durable, non-slip, powder-coated surface
- Integrated LED Light Kit mounts to linkage or to body and illuminates board and ground below for easier access in and

### EXTENDS DOWN AUTOMATICALLY WHEN DOOR OPENS.

### THEN RETRACTS UP WHEN DOOR CLOSES.

Integrated LED Light Kit illuminates the board and ground below for easier access in and out of your vehicle. Mounts to body or linkage

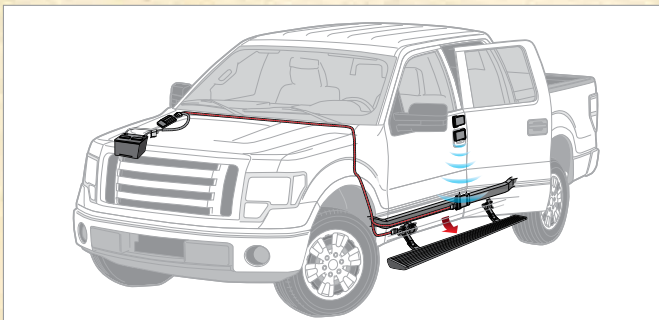

## THE SMARTEST RUNNING BOARDS ON THE PLANET JUST GOT EVEN EASIER TO INSTALL.

The PowerBoard® NX has new Patented wireless technology that makes it a whole lot smarter, and a whole lot easier to install. But that's not the entire story. It's also the end result of several years' worth of continuous improvement and testing of every single component, on every PowerBoard, wired or WiFi.

**SMARTER:** The same design as the original PowerBoard, but now using patented wi-fi technology that sends the door signals to the controller.

**EASIER:** Installation just got quicker, and far easier: no more removing door panels, no tapping into the factory color-coded door wires.

**SIMPLER:** Attachment of Bestop's exclusive door transmitters solves all the door open-close signalling and multiple connections.

"The only reason an installer needs to get in the cab is to turn on the ignition"  
—Dick Essig, Bestop Engineer

Features patented high-strength die-cast aluminum linkages

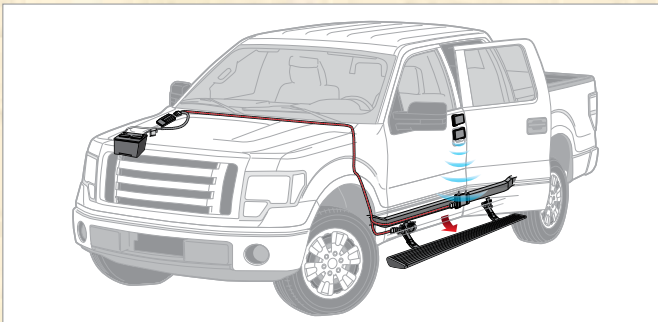

Shown on 2010 Chevy Silverado. Lights illuminate step and ground

Shown on 2009 Dodge Ram

New 4-motor design Powerboard NX shown on 2015 Ford F-150 Supercrew

**Wireless components are placed in the door jambs. Signal travels to central receiver, which signals controller to open or close the steps as needed. No door wires are tapped, and the interior of the truck cab is not touched or altered.**

Hides underneath your truck when doors are closed

Extends down to meet your foot when door opens

Shown on 2012 Ford F150

Shown on 2008 Toyota Tundra

# B SOFT TONNEAUS

Roll style tonneau, attaches with hook and loop fastener, mounts on top of bed

## EZ Roll™ Tonneau

- Tough, premium grade leather-grain vinyl coated polyester withstands any climate or weather, mildew and UV resistant
- Bows are integrated into the fabric for quick roll up
- Tonneau sits on top of bed and secures to rail with hook and loop fastener
- Features silver anodized aluminum rails and top quality fabric for that OEM look

Pull-tabs at both rear corners for convenient operation

- Bed Clamps allow easy installation directly to bed with no drilling
- Rolls conveniently to the back of the truck bed in about a minute
- Allows tailgate access without removing cover
- Restraint straps secure rolled Tonneau behind cab
- Hook and loop system makes the EZ Roll™ easy to use, even in extreme cold
- **Limited Lifetime Warranty**

Pays for itself by saving up to \$300 a year in gas!

# SUPERTOP® FOR TRUCK

Part #76307-35 shown on 2012 Ford F250

Conveniently folds in front of bed for access to fifth wheel and bed-mounted hitches

## Convertible Soft Top for Truck

- Great for fifth wheel and bed-mounted hitches
- Made of heavy duty, diamond point grain, UV protected mildew resistant fabric
- Includes the top fabric, tinted windows, rails and hardware for complete installation
- Available for mid-size and full size truck bed applications
- Folds forward for full bed access
- Replacement side window kits are available
- No-drill, four-clamp installation
- Quick bow release for easy removal
- Side and rear windows can be conveniently removed
- Front Retainer Bar provides better and tighter fit behind cab
- Industrial strength thread provides durable soft top construction
- Heavy-duty seams protect cargo from the elements
- OEM-quality molded tooth zippers allow easy window installation and removal
- **Two Year Limited Warranty**
