# GO RHINO TOTAL BUMPER SYSTEM

Go Rhino Total Bumper System (TBS) features a center bumper rich in features that can be used with Go Rhino's optional end caps and patented light bar mounts to create 16 custom bumper combinations for the 07-16 Jeep Wrangler and Wrangler Unlimited. 3 different rear bumper styles are available to match the front bumper styles.

- Build your customized Jeep style
- Start with the BRJ40 front bumper center section
- Select from 3 optional styles of end caps
- Select from 3 optional styles of patented light mount bars
- Total of 16 possible bumper combinations
- Multiple lighting options available for end caps and light mount bars (See page 10)
- Match front bumper with 3 different rear bumper styles

# BRJ40 FRONT BUMPER

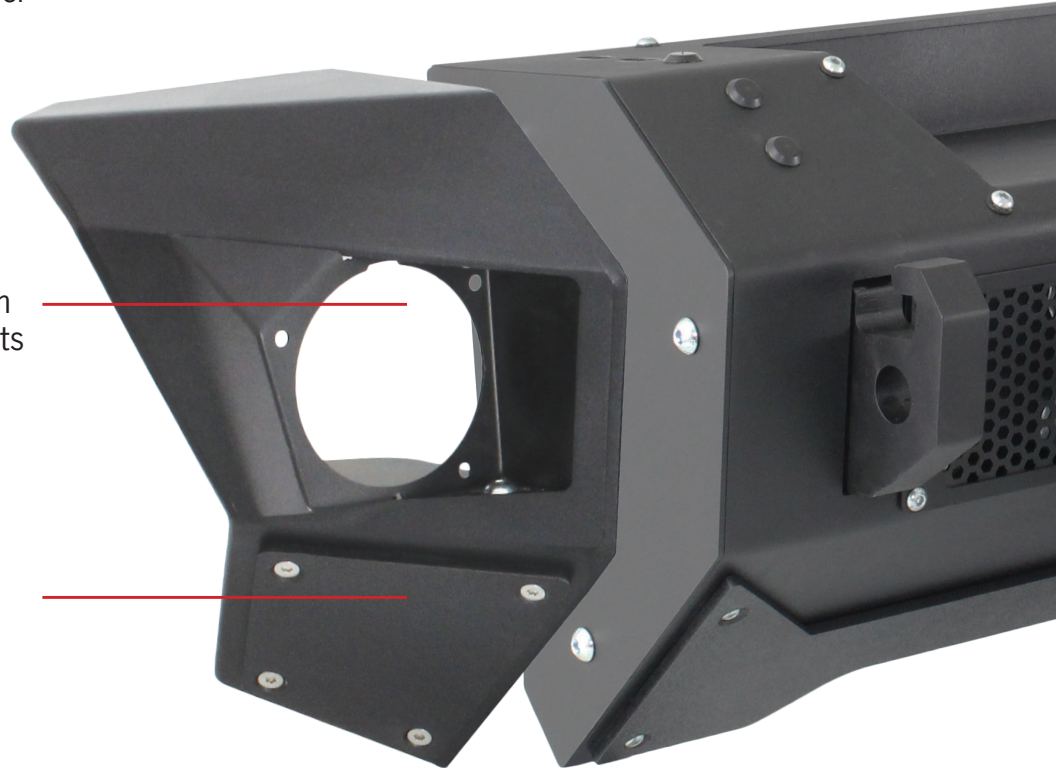

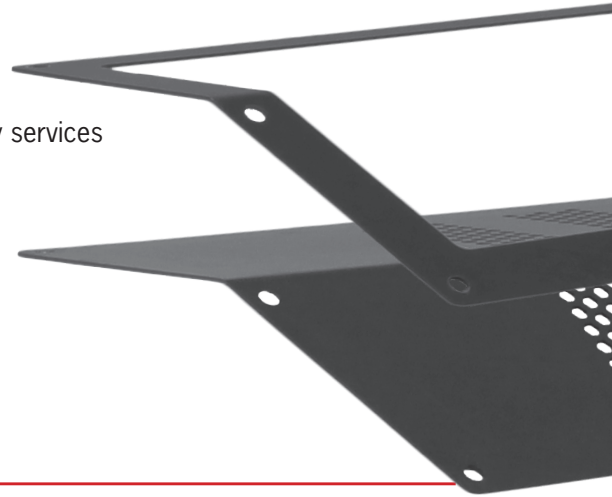

**NEW** patent pending BRJ40 modular front bumpers for the 07-16 Jeep Wrangler and Wrangler Unlimited are fully customizable with a variety of end caps, light mount bar accessories (with patented mesh panel design), and the ability to be used with or without a winch. The 6 point mounting system and no-cut, no-drill installation makes this the easiest Jeep bumper to install.

- Stainless steel hardware
- Bumper made from 3/16" steel and brackets formed are from 1/4" steel
- Bolt-on modular design (Patent Pending) allows for delivery via parcel delivery services
- 1" diameter steel shackle mounts with signature rhino horn design
- Designed with capacity for up to 12,500 lb winches
- 3 optional end caps and 3 optional light mount bars available
- Textured black powder coat finish
- 5-Year Warranty

Removable cover  
allows future  
installation of  
winch

Compatible with  
factory fog lights

Access panels allow for an easier installation

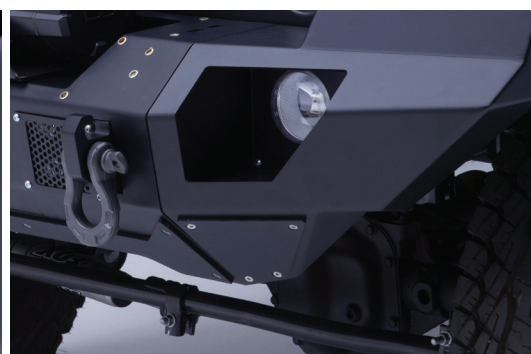

Lockable gear drawer (Patent Pending)

Lock codeable to ignition key

No cutting or vacuum canister relocation required

Recessed drawer handle

# BRJ40 BUMPER LIGHTING SYSTEM

Go Rhino's Bumper Lighting System allows complete customization of light mounting configurations on the Go Rhino BRJ40 Front Bumper. Multiple light mounting options on light mount bars with patented mesh design and end caps allow for diverse lighting variations for any style of lights.

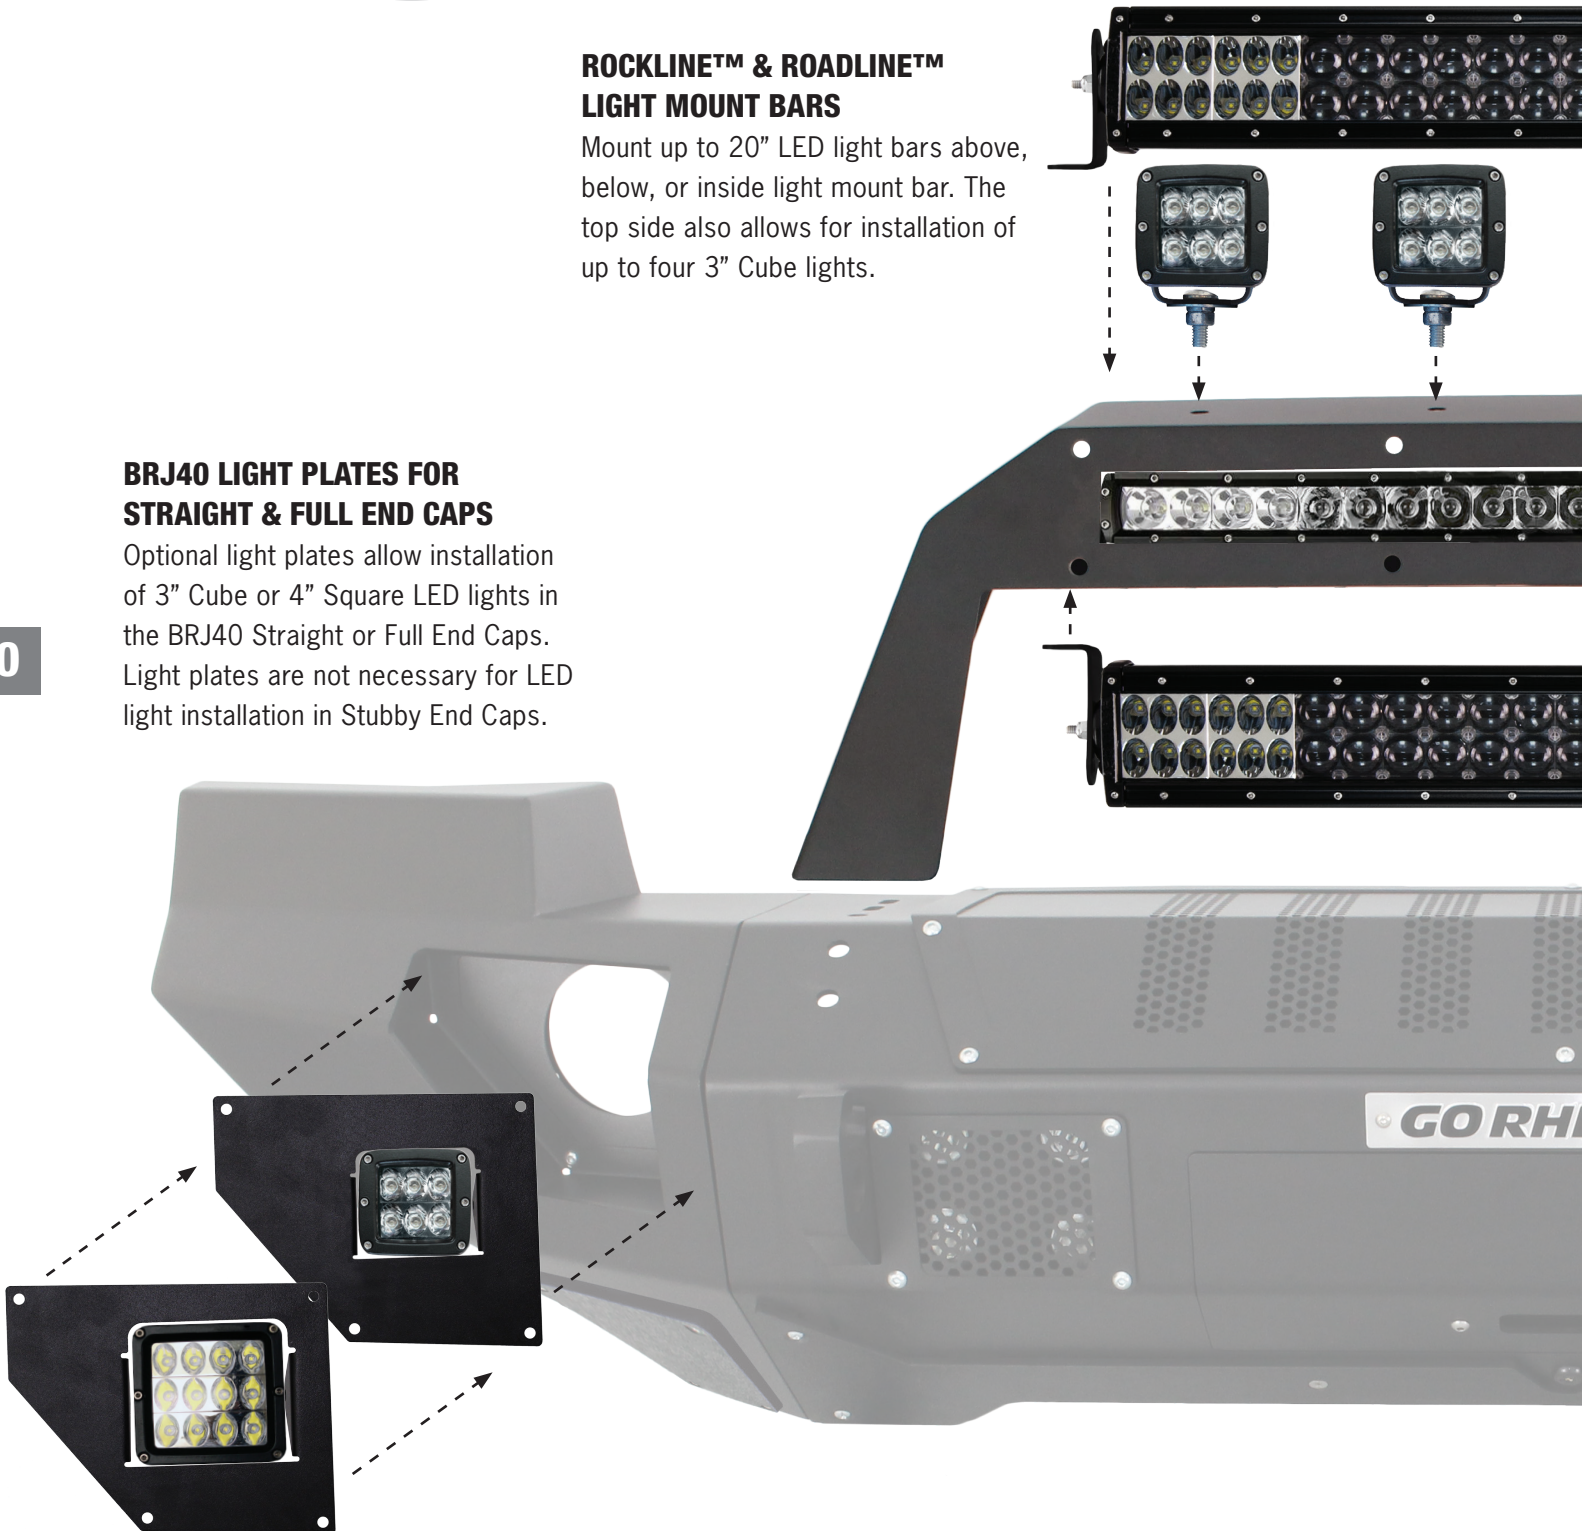

## ROCKLINE™ & ROADLINE™ LIGHT MOUNT BARS

Mount up to 20" LED light bars above, below, or inside light mount bar. The top side also allows for installation of up to four 3" Cube lights.

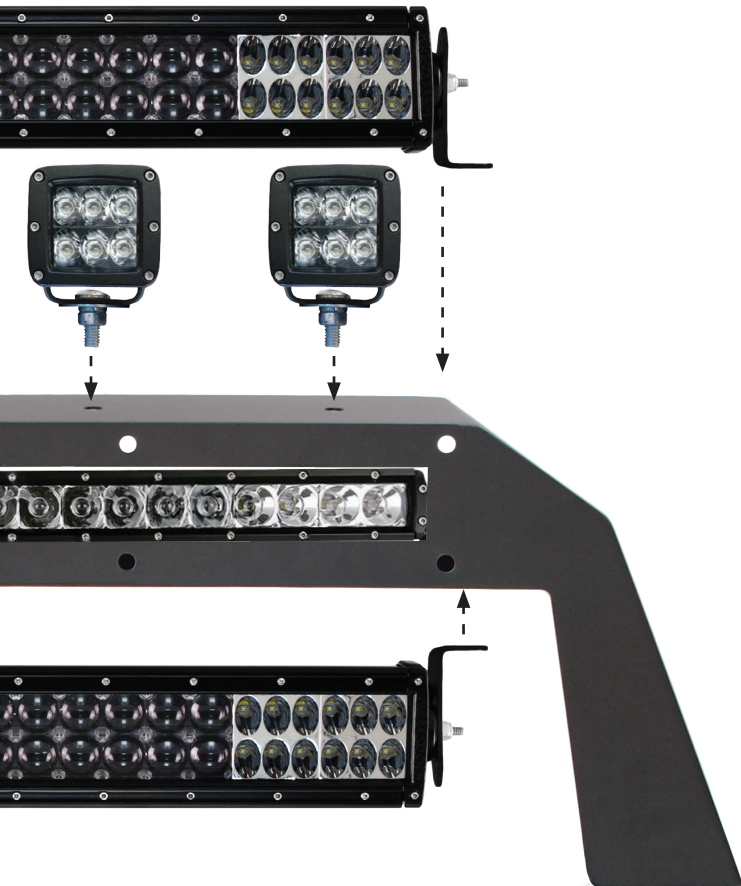

## BRJ40 LIGHT PLATES FOR STRAIGHT & FULL END CAPS

Optional light plates allow installation of 3" Cube or 4" Square LED lights in the BRJ40 Straight or Full End Caps. Light plates are not necessary for LED light installation in Stubby End Caps.

10

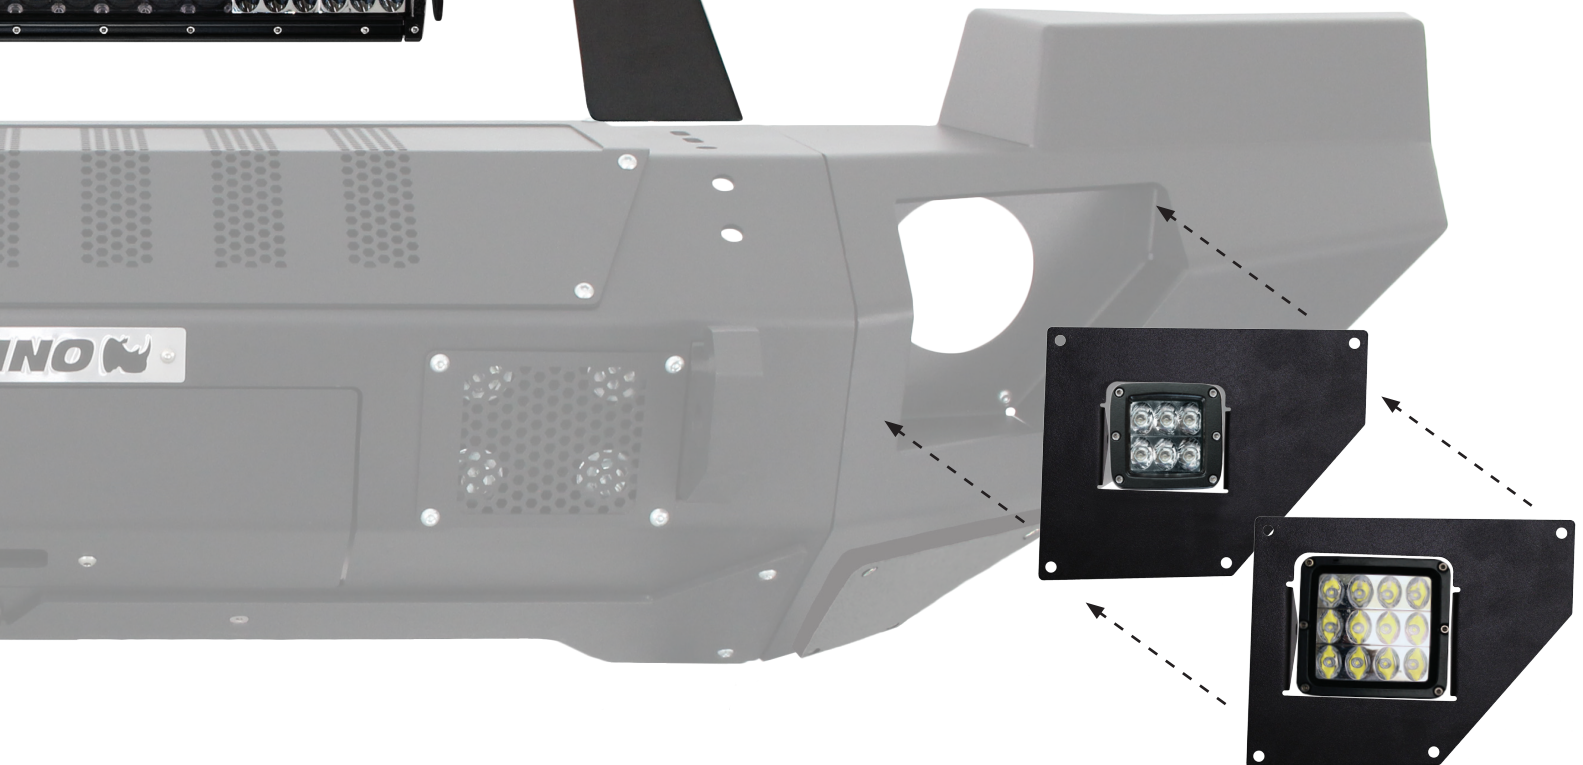

# TRAIL LIGHT

## **TRAILLINE™ LIGHT MOUNT BAR**

Mount up to 10" LED light bars above, below, or inside light mount bar. The top side also allows for installation of up to four 3" Cube lights.

# **BRJ40 FRONT BUMPER TOTAL BUMPER SYSTEM**

Go Rhino's new BRJ40 Front Bumper is a great fit for the 07-16 Jeep Wrangler and Wrangler Unlimited with or without any of the optional end caps. Your choice of one of three different patented light mount bar accessories allows for complete customization of the BRJ40 bumper.

# RB10 RUNNING BOARDS

Go Rhino RB10 Running Boards protect your paint from flying stones and gravel while offering a wide, full-length platform for an easy step up to the driver and passenger doors of the 07-16 Jeep Wrangler and Wrangler Unlimited. The new optional bolt-on drop step accessory allows even easier entry to taller & lifted vehicles.

- Wheel-to-wheel body protection from road debris
- Wide non-slip step surface for easy, safe entry and exit
- Constructed of zinc-coated corrosion-resistant steel
- Finished with a tough and durable textured UV-stable copolymer
- Optional drop step (Patent Pending) provides a stepping surface 4" below RB10 Running Board
- Includes all needed hardware for a simple no-drill installation
- Now available for both 2 and 4-door vehicles
- 5-Year Limited Warranty

## PART NUMBER

63450568T - 4 DOOR

63492648T - 2 DOOR

## OPTIONAL DROP STEPS (PATENT PENDING)

Optional Drop Steps are sold in pairs and provide an extra 4" drop below the RB10 running board for easier entry into the cab.

24

# DOMINATOR D2 HOOP STEPS

Dominator D2 hoop steps are wheel-to-wheel steps built tough enough to take a beating. Constructed from high strength round steel tubing with strategically positioned drop steps under each door, these heavy-duty bars offer a safe step in all kinds of conditions for the 07-16 Jeep Wrangler and Wrangler Unlimited.

- Drop down hoops provide step-up assist 2" below main bar for driver and passengers to easily access the Jeep cab
- Punched steel step pads provide extra grip in wet, muddy and snowy conditions
- Now available for both 2 and 4-door vehicles
- Available in textured black powder coat or polished stainless finish
- 5-year Warranty for textured black powder coat finish
- Limited Lifetime Warranty for polished stainless finish
