PERFORMANCE EXHAUST

**BUILT BY ENTHUSIASTS
FOR ENTHUSIASTS**

2012/13 MBRP PRODUCT CATALOG

BUILT FOR ENTHUSIASTS BY ENTHUSIASTS

The world is filled with followers and the automotive aftermarket industry is no different. For some manufacturers, it's easier to wait for a successful trend to develop and jump on board. After all, it's just business.

However, there remain those few who continue the pursuit for more performance, richer sound, more style and greater safety. These are enthusiasts who don't follow trends, they create them. The joy comes from turning concept into reality.

At MBRP our goal is not only about turning out performance products. It's about building the most rugged, most efficient, best tuned, easiest to install performance products available anywhere. It's about crafting products with a style that inspires and performance that awakens once again the thrill of being one with your ride.

It's also about discovering new and better ways to connect with and support our customers. The MBRP experience is something that goes beyond the pipes and clamps in the products that we build. It's about the commitment to performance in everybody involved with those products, from our welders to our tech designers to our marketing people and shippers. It's a commitment that extends to the distributors, retailers and installers who bring MBRP to you.

From the very first moment that you look at an MBRP performance product you know that it is built and backed by people who share your enthusiasm for all things automotive.

Putting together a new catalog really drives home how far we have come in such a short time and what it takes to manufacture more than just another commodity product. For our part we realized early that "premium" means more than what goes into the product itself. That's why we have always invested in better ways to work with our customers, distributors and dealers.

As we have said in the past it starts with having a staff made up of performance minded enthusiasts. At MBRP we aren't just building exhaust systems or off road gear, we are building the products that we would want for our own vehicles.

That kind of personal involvement goes beyond how we construct the products that we build. You hear it when you speak with one of our knowledgeable customer service staff. You see it in the obsessive attention to detail when you open up a kit, like the easy to follow instruction sheets or how every piece is a perfect fit. You discover it with the never ending stream of new products that don't just add to what's on the market they innovate it.

And of course, the most vital element of what makes MBRP what it is— the close and lasting relationships that we have been able to build with our distributors and dealers. Through them, enthusiasts everywhere can count on their MBRP experience to be an exceptional one. For that we are continually grateful.

Yours truly,

Martin Barkey
President, MBRP Inc.

WHAT'S NEW AT MBRP MBRP'S GOT MUSCLE

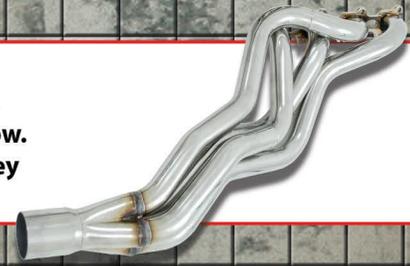

Muscle Car Products

MBRP performance has hit the late model muscle car scene in a big way. With full cat back systems designed for street as well as systems designed for racing we have the innovation, the style and the performance that you want. Thanks to the extensive dyno and road testing that goes into every component that we produce you know that your car is performing at its best. And just as important, every MBRP muscle car exhaust is specially tuned to give your ride the sound of a true muscle car.

GT500 and GT5.0 Headers PAGES 41-42

Introducing, MBRP's long awaited Headers for the Mustang GT 500 / GT 5.0. They are precision built so you can count on a smooth and rapid exhaust flow. Constructed of mirror polished T304 stainless steel they look as great as they perform.

H Pipes PAGES 41-42

We have H Pipes that will provide you with precisely the performance that you're looking for. With Catted and Off-Road H Pipes for the GT 500 and GT 5.0 and a special H Pipe for the GT 5.0 that's designed to work with the stock catalytic converter, the choice is yours.

"No Drone" Challenger System PAGE 40

Keep the true muscle car sound minus the interior drone. This is made possible thanks to our unique tuning technology which ensures that you can carry on a conversation and enjoy the ride without competing with vehicle noise inside the passenger compartment.

Camaro Power PAGE 39

Pick the Camaro cat back system that's right for you. Manual or automatic, 3.6L or 6.2L we have a system for you. More power and a classic muscle car sound make these a must have addition to your ride.

WHAT'S NEW AT MBRP

GARAGE PARTS

Expanded Garage Parts Program **STARTING AT PAGE 45**

Whether it's a hot rod, muscle car or truck, if you're the kind of guy who wants to build it your way MBRP's got you covered. Whether you need one or a dozen we've got all the clamps and flex tubes, mufflers and resonators, smooth mandrel bends and delete pipes that you could want.

Oval Performance Mufflers **PAGES 49-50**

If our expanded Garage Parts isn't enough we have oval universal performance mufflers that will give your ride the sound and performance you are looking for. With singles, duals or off sets in Pro, XP and Installer Series you can even choose between perforated or chambered cores. Whichever you decide on you can count on a muffler that will provide great sound and solid performance.

Quiet Diesel High Flow Muffler **PAGE 51**

Tired of too much sound? Want to keep the power but cut the overall exhaust note down to a dull rumble? Try our new "quiet diesel high flow muffler". Designed as a direct replacement for most 4" diesel exhaust systems, these mufflers are sure to please.

Intercooler Pipes **PAGE 57**

Taking performance to a whole new level, we've developed new intercooler pipes purpose built for your GM, Dodge or Ford diesel pick-up. With a dramatic increase in air flow you get more torque, better mileage and cooler EGTs. These show quality, mirror polished pipes deliver as much on style as they do performance.

TD
Series

Turn Down Systems-Diesel **STARTING AT PAGE 10**

The choice just gets better at MBRP with our new diesel turn down performance systems. Built of T409 stainless steel we have 4" and 5" turn down kits backed by a Lifetime Warranty. Now you can have the look that you want with the quality that you expect.

Turn Down Systems-Gasoline **STARTING AT PAGE 28**

For low-riders and off roaders MBRP introduces its new turn down systems. The perfect answer for lowered trucks with limited clearance over the axle area or off road lifted trucks where suspension kit components may interfere with an exhaust tail pipe. These systems provide all of the performance, style and sound that MBRP is known for at an affordable price.

CHEVY/GMC 4" COOL DUALS™ DIESEL SYSTEMS

Looking to give your Duramax a big look and sound? Look no further than MBRP's Cool Duals™ to give your GM just that. Boasting fully mandrel bent tail pipes and the most capable flowing muffler in the industry, MBRP's Cool Duals™ take the guesswork out of adding dual exhaust to your GM Duramax. These systems are designed for full bolt on installation and do not require you to lose your factory spare or rear mount hitch and come with everything you need including the tips! Added horsepower, torque, and fuel economy have never looked so good all while be backed by the best warranties in the business. These 4" Cool Duals systems are available in the Pro Series, XP Series, and Installer Series to fit every budget.

CHEVY/GMC 5" DIESEL EXHAUST SYSTEMS

Whether you drive an LB7, LLY, LBZ, or a LMM there is no easier way to get insane sound and power out of your pick-up than with one of MBRP's 5" exhaust systems. The mufflers on our Down Pipe and Cat back kits have a true 5" core without the reduction in exhaust flow you see on some other manufacturer's systems. If you're driving a DPF equipped Duramax, our 5" filter back systems allow you to squeeze every last drop of mileage out of your truck. These are some of the hottest exhaust systems produced here at MBRP and are available in most of our popular series. From XP Series, Installer Series, or our new Black Series, there's a 5" system to fit your style and your pocketbook.

CHEVY/GMC COMPONENTS

Some folks are just not satisfied with "the usual". They have to always be pushing the limits – refining and adjusting, until they have the truck that has no limits. We have put together some components that will take your Duramax to the next level.

Part# GMS9401

FRONT PIPES

The fastest path from the turbo to the tip is through an MBRP Front Pipe. Bulking up exhaust flow to a full 4" diameter your Duramax will breathe a whole lot better.

Part# GM8425

Part# GM8424

DOWN PIPES

Get the most exhaust flow right from the turbo with our new Duramax Down Pipes. Replace your restrictive stock pipe with one of our mandrel bent 16 gauge pipes. Protected by our tough, high temperature coating, these pipes deepen your diesel's sound while lowering EGT's and providing quicker throttle response.

	Year	Model	Description	Part #

DODGE 4" DIESEL SINGLE SYSTEMS

When performance enthusiasts look for a truck to modify the Dodge Cummins has always been a favorite. Its simple design and longevity make it well worth the investment. And of course, a lot of those enthusiasts include MBRP performance exhaust in their modification plans. So many in fact that MBRP is the most sought after performance exhaust for Dodge owners everywhere. It's no surprise because MBRP systems make getting lower EGTS, more horsepower, more torque and more sound an easy bolt-on afternoon project.

DODGE 4" COOL DUALS™ DIESEL SYSTEMS

If you're searching for the best way to make your Cummins powered Ram stand out from the crowd, look no further than MBRP's Cool Duals™ performance exhaust system. Designed to be a full bolt on installation whether a cat back, filter back, or turbo back system, these kits provide one of the most unique looks available for your truck.

COOL DUALS™

Our product development department has taken the guesswork out of adding dual exhaust to your rig and still allow use of the factory spare tire or rear mount hitch, and comes with everything needed for simple installation. More horsepower and torque are a direct result of the massive mandrel bent 4" pipes and improved pulling power and mileage are squeezed out by our high flow muffler assembly.

Available in both stainless and aluminized materials, we have a Cool Duals™ system that fits every budget. Bolt on one of the most amazingly designed exhaust systems for the Cummins powered Ram and you too will know that... "We are Performance Exhaust."

DODGE 5" DIESEL EXHAUST SYSTEMS

When you need big power but still need to keep your cool nothing does it better than an MBRP 5" exhaust. Its 5" diameter starts as soon after the turbo as possible and goes on all the way to the tip. Some manufacturer's 5" actually restrict exhaust flow going through the muffler but MBRP's is true 5" right through the core. So if you are looking to make that turbo whistle and lose those unwanted EGTs, look no further than the name that screams performance exhaust ...MBRP.

DODGE COMPONENTS

Some folks are just not satisfied with "the usual". They have to always be pushing the limits – refining and adjusting, until they have the truck that has no limits. We have put together some components that will take your Cummins to that next level.

Part# DAL401

DOWN PIPES

The fastest path from the turbo to the tip is through an MBRP Down Pipe. Bulking up exhaust flow to a full 4" diameter your Cummins will breathe a whole lot better.

Part# MK96116

HIGH FLOW MUFFLER ASSEMBLY

This assembly has been an extremely popular way to open up the exhaust flow for the 04.5–05 Cummins.

Part# HG6100

HANGER KIT

A must have for 94-97 installations of our S6100 kits.

Part# DS9417

CATALYTIC CONVERTER TEST PIPE

Have you ever wondered how your Cummins truck would run without the pesky catalytic converter? Try one of our test pipes and see!

FORD 4" DIESEL SINGLE SYSTEMS

Part# S6242304

Part# S62200TD

- **Delivers More Power**
- **Rich Mellow Exhaust Note**
- **Improved Fuel Efficiency**
- **Stylish Design**

With all of the Ford Powerstroke pickups on the road it's no surprise that our 4" single systems for the F-250/350/450/550 remain our most popular kits. MBRP has what you need with Turbo Back, Cat Back and Filter back systems that build power and reduce EGTs. As you know, there is always room for more performance.

FORD 4" COOL DUALS™ DIESEL SYSTEMS

What Powerstroke owners love about our Cool Duals™ isn't that they get every bit of power that they would expect from an MBRP exhaust. It isn't that they get that aggressive yet mellow MBRP sound. It isn't even that with our Cool Duals™ they get double the style. What they really love is that they get it all in one easy to install package.

- Utilizes OEM Hangers
- Improved Torque and Horsepower
- Lower Exhaust Gas Temperatures

FORD 5" DIESEL EXHAUST SYSTEMS

Part# S6224AL

If maximum exhaust flow is what you want check out our big 5" diesel systems. Perfect for rigs that are running at high horsepower or under extreme conditions. We have designed these systems to expand to 5" as rapidly as possible. Unlike many other systems that claim to be five inch our specially designed muffler has a 5" louvered core so that there is no restriction on getting exhaust gases out fast.

FORD COMPONENTS

Some folks are just not satisfied with "the usual". They have to always be pushing the limits – refining and adjusting, until they have the truck that has no limits. We have put together some components that will take your Powerstroke to the next level.

Part# FAL401

DOWN PIPES

The fastest path from the turbo to the tip is through an MBRP Down Pipe. Bulking up exhaust flow right from your turbo will make your Powerstroke breathe a whole lot better.

Part# FAL449

REGULAR CAB ADAPTER

Convert our 03-07 Extended Cab / Crew Cab systems to fit your Regular Cab Powerstroke.

Part# FS9414

CATALYTIC CONVERTER TEST PIPES

Have you ever wondered how your ride would perform without the catalytic converter? Try one of these pipes and find out.

CHEVY/GMC PERFORMANCE GAS SINGLE SYSTEMS

Part# S5042409

- INCREASED PERFORMANCE
- MORE PULLING POWER
- COOL EXHAUST SOUND
- DIRECT BOLT ON INSTALLATION

Whether it's lifted or lowered, a drag racer or daily driver, MBRP has a system designed to let you get the most out of your ride. Our Pro Series single systems are crafted from T304, the highest quality stainless steel in the industry so you get a system that looks great, sounds great and lasts for as long as you own your truck or SUV.

CHEVY/GMC PERFORMANCE GAS

COOL DUALS™ SYSTEMS

- Ultimate Style
- Rich Mellow Exhaust Note
- Direct Fit Design
- Quality, Quality, Quality

Bolt some style onto your truck with MBRP's Cool Duals™. Along with added power and torque throughout the complete power range you get a sound that can't be beat and a style guaranteed to turn heads. As with all of our performance gas systems they come complete with mirror polished T304 stainless steel tips for a dynamite look. Even better, with three material grades to choose from you can pick the system that fits your needs as well as your pocketbook. However you choose you can count on MBRP's "fits right the first time" quality.

FORD PERFORMANCE GAS

COOL DUALS™

SYSTEMS
PLATINUM

- **Awesome Sound**
- **Reduces EGTs**
- **More Pulling Power**
- **Killer Looks**

There is no reason why your work truck shouldn't look and sound cool. That's what MBRP's Cool Duals™ are all about. While helping your Powerstroke to pump out maximum horsepower and torque you get a rich, assertive sound and style that won't quit. Even better, you can count on your MBRP exhaust to keep on working hard for a good long time.

TOYOTA PERFORMANCE GAS SINGLE AND COOL DUALS™

Since coming onto the pick-up scene a few years ago Toyota has certainly made its mark. We've been right there with more exciting performance systems. Take for instance our new turn down systems. They are perfect for lowered vehicles or wherever an exposed tail pipe is not wanted.

COLORADO SPEED

Colorado SPEED Does it All.

After two years of designing, planning and building, the MBRP Colorado SPEED represents a rather unique project. What started out as GM Canada Drift truck project has now grown into much more. As it stands today it can certainly drift but will also hold its own on a road course or hook and run a good ¼ mile. At the same time it's civilized enough to run events like the Hot Rod Power Tour and Woodward Dream Cruise.

Thanks to partners like GM Canada and a host of automotive aftermarket manufacturers, Colorado SPEED is a perfect example of what, with some creativity and a lot of hard wrenching, can be done with what was a bone stock truck. There really are no limits.

At its premier showing at the Performance World show in Toronto, Colorado SPEED won five awards including best engine, best Pro Touring, best truck and more. Check it out at shows and race events throughout North America and featured on the cover of the largest consumer truck magazine. You will be able to follow Colorado SPEED's event schedule at www.mbrp.com.

The building of Colorado SPEED would not be possible without best in the business - sponsors like:
• GM Canada • Aeromotive • AFCO • ATI Procharger • Autometer • Cobra Seats • Eaton • Forgeline • Hitman Hotrod •
• J.E. Reel Driveline • Meaney Brothers Inc. • Mickey Thompson • Mosier Engineering • Nitto • Optima Batteries •
• Reflexion Automotive • Ron Gibbs Airbrushing • Street Scene • US Brake • Vintage Air • Xtreme Customs •

CHEVY MUSCLE CARS

CORVETTE

CAMARO

GAIN UP TO 20 HP AND 24 FT/LB

Part# S7002304

MBRP has expanded its application line up with Cat Back performance systems for the new Camaro. Featuring mandrel bent 3" pipes and a specially tuned internal crossover resonator they are designed to minimize the sound associated with the Active Fuel Management and leave you with true muscle car sound.

- Lifetime Warranty
- True Muscle Car Sound

FORD MUSCLE CARS

For decades the Ford Mustang has provided enthusiasts with outstanding performance and driving pleasure. That tradition has only been accelerated with Ford's newest versions of the GT 500 and the GT 5.0. MBRP has joined in with a full line up of cat back systems tailored to match the type of performance you need whether it be on the track or on the street.

**GAIN UP TO 15 HP
AND 15 FT/LB ...AND OUR HEADERS
WILL GET YOU MORE.**

STREET VS. RACE

We've designed our performance exhaust systems for the Shelby GT500 and the Mustang 5.0 in both a Street and a Race version. The Street version provides an assertive, richer tone over stock along with a boost to performance. The Race version provides maximum HP and torque gains while delivering a seriously aggressive exhaust note.

OFF CAMBER FABRICATIONS

BY: *MBRP INC.*

THE OFF CAMBER FABRICATIONS STORY

We all know how important having the right equipment is to the safety and enjoyment of our favorite pastimes. MBRP has earned the trust of enthusiasts everywhere for products that bolt on easily and perform as promised. Building on our success in performance exhaust we have extended our range with a brand of off road gear for the Jeep TJ and JK Wrangler called Off Camber Fabrications.

Situated as we are on the fringes of some of the most densely forested and rugged terrain on the continent, MBRP is a company made up mostly of people who have been hunting, fishing, snowmobiling and off roading all of their lives. Off Camber Fabrications are the products that we want for our own vehicles.

So after all of the computer work and prototyping we get to test our Off Camber Fabrications products in some of the harshest environments on Earth. From the rocks of Moab Utah to the dirt and mud of Rausch Creek Pennsylvania, to the blowing winter snows of Northern Canada, everything that you see here has proven itself worthy of the brand.

If you like what you see here you can find out more by checking out our new JEEP Catalog or visiting our web site at www.mbrp.com. Better still ask your automotive accessories dealer about Off Camber Fabrications. We're pretty sure that you will be glad that you did.

- Build Your System Your Way

SMOOTH MANDREL BENDS

There is nothing more frustrating than not being able to get from Point A to Point B in your exhaust build because some frame member or shock is in the way. That's why we have put together a dizzying assortment of Smooth Mandrel Bends to help you make the connection. Each piece is mandrel bent to eliminate wrinkles that would disrupt exhaust flow and are deburred to provide you with a perfect, clean fit.

You Choose.

Our Pro Series bends are constructed from T304 stainless steel, won't rust and lasts a lifetime.

Installer Series is 16 gauge aluminized steel that will give you years of reliable service.

GARAGE PARTS

Everyone has their preference of which style of clamp is best. Some believe that the clamp they use depends on the job it has to do. Wherever you fit in this debate you'll always get what you want with our selection of high quality clamps.

BARREL BAND CLAMPS

The right clamp can mean the difference between a secure system and one dragging down the highway. These Barrel Clamps are designed to provide a secure grip around the whole pipe. Stainless steel construction means that they will last a very long time.

	Size	Description	Stainless Part #
	1.5"	Barrel Band Clamp	GP20150
	1.75"	Barrel Band Clamp	GP20175
	1.875"	Barrel Band Clamp	GP20188
	2"	Barrel Band Clamp	GP20200
	2.5"	Barrel Band Clamp	GP20250
	2.75"	Barrel Band Clamp	GP20275

BAND CLAMPS

Get a positive seal around your pipe and muffler connections without risk of rippling or crimping. Particularly good for situations where you may want to remove the component intact.

	Size	Description	Stainless Part #	Aluminized Part #
	2"	Band Clamp	GP2ACS	
	2.25"	Band Clamp	GP225ACS	
	2.5"	Band Clamp	GP25ACS	
	3"	Band Clamp	GP3ACS	
	3.5"	Band Clamp	GP35ACS	GP35AC
	4"	Band Clamp	GP4ACS	GP4AC
	5"	Band Clamp	GP5ACS	GP5AC
6"	Band Clamp	GP6ACS	GP6AC	

SADDLE CLAMPS

When it comes down to raw torque nothing beats a saddle clamp. Available in low cost Mild Steel or rust resistant Zinc Plated they are the classic, no nonsense exhaust clamp.

	Size	Description	Zinc Plated Part #	Mild Steel Part #
	2.25"	Saddle Clamp	GP225CS	GP225C
	2.5"	Saddle Clamp	GP25CS	GP25C
	3"	Saddle Clamp	GP3CS	GP3C
	3.5"	Saddle Clamp	GP35CS	GP35C
	4"	Saddle Clamp	GP4CS	GP4C
	5"	Saddle Clamp	GP5CS	GP5C

GARAGE PARTS

Flex Pipe

There are times where flexible pipe is the only option either due to misalignment or the need to absorb thermal expansion or decrease vibration noise.

Diameter (I.D.)	Description	Length	Material	Part #
4"	Flex Pipe	12" long	T409	GP290007
5"	Flex Pipe	12" long	T409	GP290986

Straight Pipe

One of the secrets to building a better performance exhaust system is to start with better tubing. Now you can get the same tubing for your custom system that we use in all of our products.

Diameter (O.D.)	Description	T304	T409	AL 14 Ga.	AL 16 Ga.
1.25"	Straight Tube - 90" length				GP125AL16

GARAGE PARTS EXHAUST TIPS

VALUE PRICE

Who says that you have to settle for cheap chrome tips to save money? Our new value priced exhaust tips are constructed from T304 stainless steel so they keep looking good long after chrome tips have rusted away. You can even choose between clampless bolt on or weld on tips. These value tips are great for the undercar repair shop or the custom exhaust builder to provide a top quality finish to their customer's exhaust.

CLAMPLESS EXHAUST TIPS

For a mirror polished exhaust tip that's easy on the pocketbook, easy to install and looks great - look no further.

WELD ON TIPS

These mirror polished T304 stainless tips are weld-on for a secure, permanent installation. More than providing a classic finish to any exhaust project they are a cost effective alternative to other types of exhaust tips. Another way MBRP helps you protect your bottom line.

PERFORMANCE GAS AND MUSCLE CAR EXHAUST TIPS

From a style point of view the exhaust tip is perhaps the most important component of your performance exhaust system. It is the part that says the most about you and your sense of automotive style.

At MBRP we take that very seriously. Our stainless steel tips are made from mirror polished T304 stainless steel. Chrome cracks, discolors and peels under the harsh conditions a tip is exposed to. Our T304 stainless tips are easily cleaned for a shine that will last as long as you own your vehicle. Our Black finish tips provide a cool murdered out look that is fast becoming an extremely popular look.

Whichever you choose you can rely on a perfect fit and years of enjoyment.

"T" PIPE REPLACEMENT ELBOWS

Model	Description	Part #
Universal	"T" Pipe Replacement Elbow, SMOKERS™ 4" ID to 5" OD, Stainless	UTA001
Universal	"T" Pipe Replacement Elbow, SMOKERS™ 4" ID to 5" OD, Aluminized	UTA002

NEW!

DIESEL INTERCOOLER PIPES

- Show Quality Finish
- Serious Power Gain
- All hardware included
- Mandrel Bends for Improved Flow

Get higher manifold boost pressure with MBRP's new diesel intercooler pipes. Their massive cross sectional area and restriction free bends make for lower EGTs, improved fuel efficiency and better performance. Each kit includes everything that you need for a simple and secure installation.

MBRP PROMOTIONAL VEHICLES

Over this past year we've been even busier than usual getting out to the many national and regional shows and events. But it is always fun and there is no better way to showcase the latest in what has become an endless stream of new product ideas from our development team.

At Moab we'll meet and greet Jeep enthusiasts and show them how our hard working Off Camber Fabrications off road gear stands up in the real world. At the NHRDA World Finals we'll talk first hand with drag racing fans about unleashing the mind-blowing power of diesel. And the Hot Rod Power Tour always provides the perfect opportunity to share with other participants how our Performance Gas systems add power, sound and style to our various high end project builds.

Frequently, we will bring one or two of those vehicles to a dealer open house or wholesaler event. It's not just to show off our products but also to help support our distribution partners by bring customers into their stores and businesses. After all, they are the people who have made MBRP the exhaust brand of choice and we are always grateful to them for that.

NHRDA / DIRTY MAX

MBRP CONTINUES AS TITLE SPONSOR FOR NHRDA

Another exciting NHRDA season has passed with more races, faster times and bigger crowds than ever before. Diesel drag racing is taking the industry by storm and the NHRDA is leading the way. As title sponsor we here at MBRP are extremely excited to see what will happen next year. Our most sincere congratulations to the participating drivers and truck owners, particularly those who have won MBRP contingency prizes. You make this sport what it is.

The DirtyMax has certainly lived up to its promise posting a fuel-only record 8.801 @ 154.32 Mph and winning an amazing 4 out of 6 divisions in Pro-Stock on the NHRDA circuit. In fact, the whole season was spent with DirtyMax setting up records for it to then break.

Congratulations to Brad, Tracy, Michael and the whole G&J crew on an awesome year. We're sure to see low 8's next year.
